## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 8, 9, 25, and 28-36 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With regard to claims 8, 9, and 25, although the prior art discloses a method for analyzing an object comprising the steps of prescanning the object using a multiple energy x-ray device to determine prescan information, transmitting the prescan information to a processor coupled to a computed tomography device, and performing a computed tomography scan of at least a portion of the object based on the prescan information, wherein the computed tomography scan generates computed tomography scan data and is performed using the computed tomography device, it fails to teach or fairly suggest the step of performing a metal artifact correction on the computed tomography scan data, wherein the prescan information is used to perform the metal artifact correction on the computed tomography scan data as claimed.

With regard to claims 28-36, although the prior art discloses a method for analyzing an object comprising the steps of prescanning the object using a multiple energy x-ray device to determine information indicative of effective atomic number characteristics of the object; and transmitting, to another device that is separate from and coupled to the multiple energy x-ray device, a transmission that is based at least partially on the information, it fails to teach or fairly suggest the step of using the information received at the device to process scan data generated by a computed tomography device as claimed.

Art Unit: 2882

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
